- **Backend & Cloud:** Firebase (Realtime Database, Firestore, Authentication), AWS, REST APIs, InnoDB
- **Tools & DevOps:** Git/GitHub, XAMPP, CI/CD, CPanel, Payment Gateway Integration
- **Other Skills:** UI/UX Design, Agile/Scrum, Debugging & Testing, Cross-functional Collaboration

---

Professional Experience

Android Developer | Prudle One

Apr 2023 – Present | Jalandhar, India

CakeBakes – Shopping App

- **Role:** Built from scratch
- **Tech Stack:** Android Studio, Java, Google Map, XML, Payment Gateway, Firebase Realtime Database, Firebase Notification
- **Description:** Developed a bakery shopping system with two apps (User & Admin). Users can order products online, make payments, and admins can process orders and prepare them for delivery.

Prudle Labs – Translator

- **Role:** Associate Developer, Team Project
- **Tech Stack:** Android Studio, Java, API, Postman, Language Translator
- **Description:** Built a new translation feature in an existing app that converts text into multiple languages and provides audio playback via speaker.

Android Developer | Evolver Tech

Feb 2022 – Apr 2023 | Jalandhar, India

Jazz Inn – Hotel Booking

- **Role:** Updated features & layout
- **Tech Stack:** Android Studio, Java, Kotlin, API, Postman, Google Map, Payment Gateway, XML, CPanel, Play Store
- **Description:** Redesigned the app layout, added pre-payment functionality, location-based hotel discovery, and deployed updates to Play Store.

To-Do Reminder (Geo-Fencing)

- **Role:** Developer
- **Tech Stack:** Android Studio, Java, Kotlin, API, Postman, Google Map, Geo-Fencing, Firebase
- **Description:** Developed location-triggered reminder app. Notifications trigger when users enter predefined work areas using geofencing.

Freelance Android/PHP Developer

2019 – Present | Remote / Client-based

Pay Your Fee – Software

- **Role:** Developer
- **Tech Stack:** VS Code, PHP, XAMPP, Firebase, InnoDB, Database

- **Description:** Developed fee collection software with local & Firebase storage and automatic receipt printing.

Tracking Track – Employee Tracking

- **Role:** Developer
- **Tech Stack:** VS Code, PHP, XAMPP, Amazon Web Server, Database, API
- **Description:** Developed system to track employees, send data to AWS, and provide role-based access for different employees.

Dots & Boxes Game *(College Project)*

- **Role:** Built independently
- **Tech Stack:** Android Studio, Java, HashMap, XML
- **Description:** Two-player strategic game where players draw lines to complete boxes. Player with most boxes wins.

Software Developer | Wintex Export

May 2023 – Present | Jalandhar, India

Stitchers Salary – Work Management

- **Role:** Developer
- **Tech Stack:** VS Code, PHP, XAMPP, Firebase, InnoDB, Database
- **Description:** Recorded daily production of stitchers and calculated salaries automatically. Data saved on local and Firebase cloud backup.

Education

- **MCA** – APJIMTC
- **BSc IT** – DIPS IMT

Certifications & Achievements

- Google Play Store App Deployment
- Firebase Certification (Realtime Database & Cloud Functions)
- Successfully delivered 20+ client projects with 100% client satisfaction

Languages

- English – Professional
- Hindi – Native
